

FINAL EXAM SCHEDULE - FALL 2009

MONDAY, DECEMBER 7 - MONDAY, DECEMBER 14, 2009

Locate the day(s) and start time of your class along the top and side of the chart. At the intersection will be the day of the final exam for that class. Example: A class that meets on Tuesday/Thursday at 9:30 a.m. will have the final exam on Thursday, December 10, from 8-10 a.m. The exceptions are Departmental Exams; see listing below. If your class start time does not appear in the chart, use the closest class start time. Faculty will confirm the final exam schedule with each class within the first week of the semester. Scheduling conflicts should be brought to the instructor's attention during the first week of the semester. Monday, December 14, will be used for final exams if needed due to weather cancellations.
