

June 2005

Type of Incident	Date/Time Reported	Location of Incident	Reporting Officer
Threat	6/15/05 1:00pm	Registration	C. Lawson
Summary			
<p>A staff member came to the Security office wanting to make a complaint. Security followed her to her office where she proceeded to tell Security that at approximately 12:15, she received a call from a former 2001 student requesting information about an email she had sent on May 25, 2005 of an unresolved balance of \$837.00 with Howard Community College. The student wanted the funds to be deleted out of the account due to the fact of identity theft and she was living out of state. The staff member informed the student that she was registered at that time and could not further assist her and attempted to give her the number to the Vice President of Student Services to see if she could resolve the issue. It was at that time that the student became irate and began to make idle threats. The student also made threats to additional individuals. All parties involved were advised to call Howard County Police and file a report..</p>
