Barracuda Spam Filtering System

The college has purchased & implemented a new email filtering system. Everyone can now check their own account to see if any emails have been filtered and release them.

Go to https://198.51.197.209/- You will get a message that it is a non-secure site. Follow the directions below for Internet Explorer, Google Chrome and Mozilla Firefox to proceed to the page.

**Internet Explorer:**
Click “Continue to this website (not recommended)”

![Image of certificate error in Internet Explorer]

**Google Chrome:**
1. Click “Advanced”
2. Click “Proceed to 198.51.197.209 (unsafe)”

Mozilla Firefox:
1. Select “I Understand the Risks”

2. Click “Add Exception”
3. Click “Confirm Security Exception”

Log in using your HCC email address and your HCC password. You should see a list of filtered emails (see screen shot below) and three actions; Deliver, Whitelist and Delete. If you click deliver it will send only that email to your inbox. If you select whitelist it will not filter out the email address in the future.

You can also select under Preferences how often you wish to receive quarantine notifications.
Please contact the Help Desk at 443-518-4444 if you need further assistance.
