ARTICULATION AGREEMENT

Howard Community College (hereafter referred to as Howard CC), a community college in Howard County, Maryland, and the University of Baltimore (hereafter referred to as UB), a state university in Baltimore, Maryland and a member of the University System of Maryland, agree to offer an articulated program leading to the award of a Bachelor of Science in Applied Information Technology.

PURPOSE OF AGREEMENT

This agreement is entered into in the interests of our students. The general purpose of this agreement is to make clear the terms of this articulation agreement. This agreement will allow for the efficient transfer of students between campuses, including transfer credit, admissions and financial aid/scholarship. It will provide opportunities for students beyond the classroom, serving as a basis for student involvement and faculty interaction. It will set expectations for administrators, faculty and staff at both institutions, and foster a working relationship between the parties. Finally, it will encourage students to continue their education for their own personal and professional development.

ADMINISTRATIVE PRINCIPLES

The following general principles guide the operation of this Agreement:

1. The program is designed for graduates of the associate degree in Information Technology at Howard. A maximum of 60 credit hours from Howard CC will be allowed towards fulfillment of the one hundred twenty (120) credit hours required for baccalaureate completion.
2. This Articulation agreement is divided into three program tracks: 1. PC/Network Hardware/iNet Option, 2. Programming Option, 3. Cisco Option. Students interested in the Web Development program are encouraged to pursue the Simulation and Digital Entertainment or Computer Science degree at the University of Baltimore.
3. In accordance with Code of Maryland Regulation, all courses meeting general education requirements at will transfer to UB as general education. Other general education requirements will be met by using required or elective courses at UB as noted in this agreement.
4. The maximum number of credits that will be accepted by UB toward degree requirements from non-direct classroom instruction (including CLEP, AP, other nationally recognized standardized examination scores and other four-year institutions) is 30 credits. If the course is evaluated by Howard CC and applied to the Information Technology degree, UB will accept the course automatically as a transfer course. If the credit is not on the Howard CC transcript, the student may submit the score report to be evaluated by UB and credit will be applied as determined by UB's evaluation. Credit awarded for experiential

learning (“life experience”) if awarded by Howard CC is recognized by, and is transferable to UB. Credit earned at the High School level is not applicable for transfer. It is possible that not all transferable credit accepted by UB will be applicable to the degree.

5. Courses completed at another community college will count towards the total credits transferred into UB. Official transcripts from previously attended institutions will also be required.
6. Once the associate’s degree is completed and the student has been admitted to UB, the student will be instructed to contact the appointed academic advisor and register for classes.
7. While Howard CC and UB do not presently have a dual admissions program, should one be agreed to, this agreement will not preclude students from participation and students may apply for and receive the benefits of dual admission.
8. UB will establish a mechanism to provide information on the academic progress of the Howard CC student enrolled as a result of this agreement.
9. Students may complete the UB curriculum part-time or full-time, online or face-to-face, or in any combination thereof.
10. This articulation agreement becomes effective on the date set forth on the first page of this document. This agreement will be reviewed biennially, and appropriately marked as such.
11. Howard CC and UB agree to publicize this program.
12. Howard CC and UB agree to monitor the performance of this agreement and to revise it as necessary.
13. The agreement may be terminated by either party after adequate notice, defined as one semester or 6 months, to the other, at which time appropriate measures will be put into place regarding the continued transfer of students.
14. The office of record for academic agreements at the University of Baltimore is the Office of Community College Relations. The office of record for agreements at Howard Community College is the Office of the Vice President of Academic Affairs.

For admission to UB, the following apply:

1. Students must maintain a 2.0 cumulative grade point average in order to transfer at the 56 credit level or higher. Should students choose to transfer prior to completion of their associate’s degree, they will be responsible for meeting eligibility requirements.

2. In order to be eligible for admission, students must comply with all UB admissions requirements, including posted deadlines and appropriate documentation.
3. Should this articulation agreement concern a program with additional admissions requirements or prerequisite coursework, students must have met all standards prior to enrollment at UB.
4. Students who have satisfied the requirements of the articulation agreement will be given every consideration for financial assistance and will be eligible to compete for academic scholarships at UB.

APPENDICIES

As part of this agreement, the following have been included.

1. Course by Course articulations, including satisfaction of general education requirements at both Howard CC and the University of Baltimore.
2. Upper Division requirements, to be completed at the University of Baltimore.
3. An academic advising sheet, showing requirements for completion of the degree at Howard.

These appendices can be changed on a routine basis, by mutual agreement, without the procedural process review or revision of the entire articulation agreement.
